

NineRemit | Simplifying Cross-Border Medical Payments.

CEO of NineRemit and Ninecure is Neelesh Singh

NineRemit is an upcoming cross-border remittance platform designed to support the medical tourism ecosystem. We would enable seamless, compliant, and transparent payments from patients and families to hospitals and healthcare providers across borders.

By partnering with trusted white-label payment service providers in key markets, NineRemit will ensure that medical remittances are fast, secure, and fully aligned with local regulatory requirements. Our platform will simplify the financial journey for patients while empowering hospitals and healthcare facilitators with reliable payment solutions.

Our Mission: To remove financial barriers for patients seeking quality healthcare abroad by making international medical payments simple, safe, and stress-free.

Our Partners: We collaborate with hospitals, healthcare facilitators, and payment partners to build a reliable ecosystem for global medical care.

Your Care, Our Commitment.

Embark on a Journey to Trusted, Top-Tier Healthcare in India. NineRemit connects you with affordable, high-quality treatments at leading hospitals in India. From selecting the right hospital to sending money and arranging travel, it's your all-in-one partner for a smooth medical journey.

Every year, thousands of international patients choose India for advanced, affordable, and trusted healthcare. From expert doctors and globally accredited hospitals to complete travel and treatment support – the journey becomes easier when guided by the right team.

At Ninecure Medical Tourism, we help patients take confident steps toward better health by offering:

- ✓ Personalized treatment options
- ✓ Transparent cost guidance
- ✓ End-to-end support – from consultation to recovery

planning treatment and international travel at the same time can feel overwhelming.

That's where NineCure steps in.

We help patients navigate medical tourism with clarity and confidence—starting from a virtual second opinion to choosing internationally accredited hospitals, managing visas and travel, and ensuring continued care even after returning home.

Our goal is simple:

- 👉 Remove the stress from logistics
- 👉 So you can focus on healing and recovery

Medical tourism doesn't have to be complicated. With the right guidance, it can be safe, seamless, and empowering.

India has emerged as the world's leading destination for medical tourism by offering high-quality healthcare at a fraction of global costs. Patients can save up to 60-80% on major treatments while receiving care from internationally trained doctors in advanced, globally accredited hospitals. With shorter waiting times and a wide range of medical specialties—from

cardiac and orthopaedic care to fertility, dental, cosmetic, and cancer treatments—India provides a complete and reliable healthcare solution. Ninecure Medical Tourism plays a vital role in this journey by connecting international patients with trusted hospitals and expert doctors while offering end-to-end support, transparent pricing, and personalized care. Together, India's medical excellence and Ninecure's patient-first approach make world-class treatment accessible, safe, and stress-free for patients worldwide.
