CEO Information

The CEO of NineRemit and NineCure is Neelesh Singh.

Company Overview

NineRemit is a cross-border medical remittance platform designed to simplify international healthcare payments. The platform enables patients and their families to securely transfer funds to hospitals and healthcare providers across countries. NineRemit focuses on compliance, transparency, security, and efficiency in medical payments.

Mission

The mission of NineRemit is to remove financial barriers for patients seeking quality healthcare abroad by making international medical payments simple, safe, and stress-free.

NineCure Medical Tourism

NineCure supports international patients by helping them identify suitable hospitals, obtain medical opinions, understand treatment costs, arrange travel and visas, and coordinate recovery support.

Services

- Personalized treatment recommendations
- Transparent treatment cost guidance
- Hospital and doctor selection support
- Visa and travel assistance
- Accommodation guidance
- End-to-end medical tourism support
- Post-treatment care coordination

Why India for Medical Tourism?

India offers high-quality healthcare at significantly lower costs than many countries. Patients can save up to 60-80% on major procedures while receiving treatment from internationally trained doctors in accredited hospitals.
